TASTE

Experimenting around with the original Wire Works recipe led us to the base for this gin. We still use nine botanicals, but we've toned down the spicy ones in favor of brighter citrus flavor. Notes of lemon and orange are balanced by the sweet and earthy roots. The finish lends itself to hints of red wine grapes. From an Aviation to Collins, gin cocktails don't get more gorgeous and flavorful than with Wire Works Rosé.

BACKGROUND

Wire Works Rosé was created to blur the lines of what defines a gin. We were inspired by our English brothers and the wonderful pink gin that is known across the UK. During what seems like an endless winter we stayed sunny and cheerful by focusing our energy on the perfect summer spirit.

PROCESS

Wire Works is batch-distilled at GrandTen Distilling in Boston Massachusetts. Instead of using a gin basket, the botanicals are macerated during the final distillation. Distillation takes place in a 50-gallon Adolf Adrian pot still with ball shaped hat and a parallel mounted column with four rectification plates and amplifier. After distillation we proof to 160 and add grape must. Over the course of a week we will slowly lower the proof to 100. Then the gin is filtered, final proofed and bottled.

WHAT'S IN THE BOTTLE

GrandTen Distilling

WE STARTED GRANDTEN DISTILLING because we love spirits and, just like you, enjoy a nice drink at the end of the day. Our mission is to create distinctive products that will satisfy the growing number of savvy cocktail drinkers. We are inspired by new and interesting flavors, but also take pride in producing high quality, classic spirits. Our flagship product, Wire Works American Gin, celebrates the history of the famous South Boston iron foundry that once occupied the space where we now distill.
