

### **SUSE eLearning at a glance:**

SUSE eLearning is designed for today's business and today's employees. It is a cost-effective, subscription-based, digital platform designed to give your team the skills they need, anytime, anywhere. From bite-sized videos to solve an immediate challenge or structured learning paths leading to certification, SUSE eLearning is the instant, intelligent way to train.

The skills gap is real. IDC's 2019 Worldwide CIO Agenda shows that 30% of high-demand roles for emerging technologies will remain unfilled through 2022. They also predict that a lack of cloud talent has the potential to cost enterprises as much as \$258 million a year in lost revenues and slower innovation.

Few can repeatedly afford the financial and operational costs of sending key team members away for a week or more and are looking for ways to supplement their in person training. Blended learning solutions that mix instructor led and self-paced methods are the answer.

SUSE eLearning provides a self-paced method with a simple to use, best-in-class online learning platform that offers all of SUSE technical training – anytime, anywhere.

### **The Benefits of SUSE eLearning**

SUSE eLearning is digital learning designed to help you master SUSE technology. Whether your team needs access to bite-sized videos to solve an immediate challenge or a more structured learning path leading to certification, SUSE eLearning should be all on one line. The hyphen is in the wrong place is the instant, intelligent way for you to train your team.

“Corporate customers are asking for blended learning approach to train their IT technical staff, that is self-paced delivery to complement their classroom training. As an authorized SUSE Training Partner, we are excited to offer SUSE eLearning to our global customer base in conjunction with our Fast Lane Live platform.”

**Torsten Poels**  
Owner/CEO  
Fast Lane Group

With eLearning, SUSE brings our world-class technical training directly to your team, offering:

- **Flexible learning** – provide your team with intelligent, agile learning opportunities. SUSE eLearning does this by allowing your team to learn at their own pace, in their own time, and independent of location. Whether you purchase eLearning for a month or a year, the subscription entitles the user to the latest SUSE technical training as soon as they are available.
- **Limitless learning** – take as many courses as you need as often as you need to. Your subscription gives you the power to get the skills you need to move your business forward. Take classes at your own pace, retake classes to master a skill, or follow a defined learning path.
- **Cost effective Learning** – give your team access to eLearning, covering all SUSE products training, at the cost of accessing in-person, one product training. They will also learn new skills in a fraction of

the time. Use SUSE eLearning in combination with Custom Training to really move your business forward. Get and retain the skilled workers you need to modernize your business.

### Subscribing to eLearning

SUSE eLearning is available in three different ways:

**SUSE Shop** – Purchase your monthly or annual subscription through the SUSE Shop. Simply select the option that’s right for you.

**SUSE Partners** – All SUSE Partners are authorized to sell SUSE eLearning annual subscriptions. Ask your Partner for the option that is best for you and your team.

**Direct from SUSE** – Purchase annual subscriptions directly from SUSE. If you wish to purchase subscriptions for a large team, be sure to ask about enterprise discounts.
