

LOCATING YOUR SERIAL NUMBER

Each spa has the serial number labeled on the unit. Please see the reference below for label locations specific to your spa model.

1a. 220 Label

This label is included on all spas, but its position depends on the model of spa. **The second line of the label shows the serial number.**

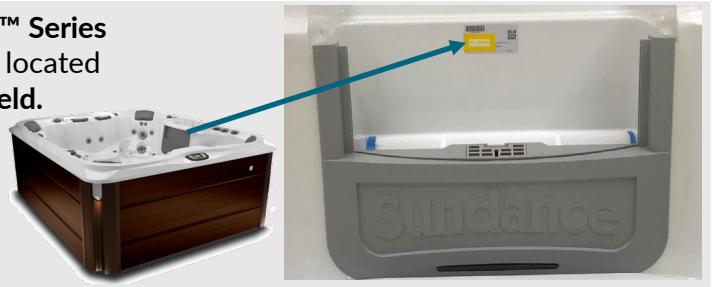

680™ Series has the 220 Label located in the **filter area.**

1b. 220 Label

This label is included on all spas, but its position depends on the model of spa. **The second line of the label shows the serial number.**

780™, 880™ & 980™ Series have the 220 Label located **below the filter shield.**

2. In Equipment Bay

Two labels are attached in front of Electrical box. The left label includes serial number of spa. **Only the center portion highlighted is needed.**

3. SmartTub™ Label

This label is only on spas with SmartTub™. It is attached on right side of control panel on the top rail. **The serial number is shown at the bottom.**

4. Energy Label

This label is only on Domestic models, and it's attached on front right corner on top rail. **The serial number appears on the label's right side.**
