

Your Spa Shopping

Checklist

Ready to find the perfect spa for your home?

The next step is to visit a spa dealer.

They will personally guide you through model selection, but here are a few questions and suggestions to get you started.

GET THE DEALER SCOOP

- How long has the dealer been in business?
- How soon can your hot tub can be installed?
- What do you need to do before delivery?
- Whom can you contact for support?

GET THE DOLLAR DETAILS

- What is the typical monthly energy cost of running a spa in your area?
- How much time does it take to maintain the hot tub each week? How much does it cost?
- What is the warranty on the tub and its components?
- What financing options does the dealer offer?
- Is there a trade-in program?
- Are there any floor models or specials?

WHAT YOUR DEALER CAN DO FOR YOU

- Perform a demonstration of key features.
- Schedule a wet and/or dry test.
- Go over your installation plan.
- Discuss maintenance and water care.
- Set up delivery.
- Answer all of your spa shopping questions.

TRY BEFORE YOU BUY

- Get jet set.** Ideally, you want to experience the jets during a wet test, but letting the streams run over your hands is the next best thing. Take note if the jets are adjustable, and if they are placed to provide massage treatments to the areas that need it most.
- Have a seat.** Climb into the hot tub to make sure the seats are sized just right for you and your family members. Some models have a variety of seat styles and heights, including "cool down" seating for younger spa goers or to take a break from the heat.
- Use your spa senses.** Listen to hear how loud the spa sounds. Look at the control panel to see if the buttons and display are easy to use. Get a feel for how easy it is to get in and out.

EXPLORE THE EXTRAS

- Ask your dealer to share photos of prior installations for inspiration.
- Check out accessories from covers to steps and more.
- Inquire about upgrades and enhancements like apps, ozone, stereos, etc.
