

Bath Caddy Tray Owner's Use and Care Guide

To ensure a long life for your Bath Caddy Tray it is important to adhere to the following cleaning techniques and list of DOs and DO NOTs. Rinse or wipe the Bath Caddy Tray with lukewarm water after use. Remove dust and dirt from your Bath Caddy Tray with a damp, microfiber cloth or sponge and a solution of mild soap and/or liquid detergent in water. Rinse or wipe the Bath Caddy Tray again with lukewarm water. For more stubborn stains (dirty spots or grease) surface cleaners like Fantastik® or Formula 409® also work well. A scotch brite sponge can also help remove tough grease stains. After all cleaning steps, be sure to rinse thoroughly with lukewarm water.

If you spill any colored liquids on the Bath Caddy Tray, always use a damp microfiber cloth to blot dry. Rubbing with a dry cloth can scratch the material and create a static charge. Never use scrapers or squeegees on the Bath Caddy Tray.

DO NOT:

- Sit or put heavy objects on the Bath Caddy Tray
- Use plugged-in electronic or mobile devices while you are submerged in water
- Use squeegees or scrapers as they may scratch the Bath Caddy Tray
- Use scouring compounds
- Use abrasives or highly alkaline cleaners
- Use a dry cloth or a cloth of synthetic fiber such as rayon or polyester as they may scratch the Bath Caddy Tray
- Use Windex® or other glass cleaners

DO:

- Use warm water, mild detergent and a microfiber cloth
- Rinse surface thoroughly after cleaning with lukewarm water
- Blot dry with slightly damp, microfiber cloth
