

In 2021, the impact of your fundraising helped **change kids' health to change the future.**

Duke Children's is a premier, world-class pediatric healthcare institution providing compassionate care in a child-centered environment. Our research for pediatric illnesses and diseases has discovered novel treatments for rare genetic and metabolic disorders, and contributed significantly through the Duke Human Vaccine Institute to effective COVID-19 vaccine development. Our Children's Miracle Network Hospitals® partnership provides critical resources to support each of our mission's pillars.

KEY FUNDING AREAS

Children's Miracle Network Hospitals' fundraising partners and programs are the key to positively changing kids' health and redefining positive outcomes for communities. Through our collective efforts, we provide member hospitals with the critical funds they need to advance pediatric healthcare at-large, ultimately improving individual patients' health, protecting our children's futures and enhancing our communities.

52%

helps provide **charitable care** to patients

Every day, member hospitals treat

1,718

kids for **cancer**
