Letter of tests performed by VTT Expert services Ltd. for Safera Oy

Safera Oy assigned VTT Expert Services Ltd. to perform tests according to *EN 50615* for stove guard Siro IN-line which was integrated on a range hood of type Franke F251-10. The following tests were performed:

- *Table 11.104.2 Tests for Category B devices*
- *Chapter 22 Construction* (only tests which were applicable for the product were performed)

The tested product met the performance criteria set out in the standard EN 50615 regarding the above mentioned tests. The complete test results are presented in test reports VTT-S-06151-15 (Table 11.104.2 tests) and VTT-S-06150-15 (Chapter 22 tests).

VTT Expert Services Ltd. is test laboratory no. T001 accredited by FINAS (Finnish Accreditation Service). VTT Expert Services Ltd. conforms to the requirements of the standard SFS-EN ISO/IEC 17025:2005. The sub scope 1.11 covers fire safety however the standard EN 50615 is not in the scope of accreditation.
